

CONTENTS.

I.—REPORT OF THE COMMISSIONER.

A.—GENERAL CONSIDERATIONS.

	Page.
I. INTRODUCTORY REMARKS	xvii
Scope and sequence of the present report.....	xvii
Recent expansion of operations.....	xvii
Educational services of the Commission.....	xvii
Demand for specimens collected.....	xviii
Noteworthy features of the year.....	xviii
(1) Appropriation to complete the Albatross	xviii
(2) Changes in command of Albatross and Fish Hawk.....	xviii
(3) Purchase of a Herreshoff launch.....	xviii
(4) Acquisition of land at Wood's Holl, and relinquishment of jurisdiction over the same by the State of Massachusetts to the United States.....	xviii
(5) Appropriation for a pier at Wood's Holl	xviii
(6) Fitting up of Armory Station and introduction of railroad tracks within the inclosure	xviii
(7) Appropriation for London Fishery Exhibition, and giving charge of American representation to the United States Fish Commission.....	xviii
(8) Proposition for a fishway at the Great Falls of the Potomac	xviii
(9) Acquisition of a station for rearing California trout at Wytheville, Va.	xviii
(10) Transfer of Saint Jerome station to the United States Fish Commission	xviii
(11) Commencement of the work of oyster propagation at Saint Jerome.....	xviii
(12) Practical completion of the fishery census work of 1880	xviii
(13) Order of Congress for printing a report on the American fish and fisheries	xix
(14) Great expansion of the carp distribution	xix
(15) The practical extermination of the tile fish in the North Atlantic	xix
Work yet to be accomplished by the Commission.....	xix
(1) Completing the knowledge of the habits of the useful fishes and other aquatic animals and their proper identification, the collecting of specimens on a large scale, and their distribution to colleges and academies.....	xix
(2) The improvement of the methods of capture	xix
Great aid rendered in the past by the introduction of the ood gill-net	xix
Treatment of nets to prevent their rotting.....	xx
(3) Improvement in fishing vessels	xx
(4) Survey of old fishing grounds and the discovery of new ones	xx
Field for discovery along the coasts of the South Atlantic and the Gulf States.....	xx
(5) Improved methods of preparing and curing fish	xx
Progress since the Centennial.....	xxi
(6) Stocking and restocking the waters with fish only begun	xxi
General conditions involved.....	xxi
Healthy public sentiment and suitable legislation brought about for protection of the fisheries	xxi
Fishes of special promise and importance.....	xxii
The oyster requiring special attention	xxii
Correspondence of 1882	xxiii
Convenience of the new offices.....	xxiii
Casualties among assistants and correspondents	xxiii
Death of Mr. H. E. Rockwell.....	xxiii
Death of Mr. B. B. Redding.....	xxiii

	Page.
2. PRINCIPAL STATIONS OF THE UNITED STATES COMMISSION	xxiv
A.—For investigation and research	xxiv
(1) Gloucester, Mass.	xxiv
(2) Wood's Holl, Mass.	xxiv
(3) Saint Jerome's, Md.	xxiv
B.—For propagation of Salmonidæ	xxiv
(4) Grand Lake Stream, Me. (Schoolie Salmon)	xxiv
(5) Bucksport, Me., (Penobscot Salmon and Whitefish)	xxiv
(6) Northville, Mich. (Whitefish and several species of Trout)	xxiv
(7) Alpena, Mich. (Whitefish)	xxv
(8) Baird, Shasta County, Cal. (California Salmon)	xxv
(9) Trout ponds near Baird, Cal. (California Trout)	xxv
Roslyn, N. Y. (Schoolie and Penobscot Salmon)	lxx
Wytheville, Va. (Salmonidæ generally)	lxxii
C.—For propagation of Shad	xxv
(10) Havre de Grace, Md.	xxv
(11) Washington, D. C., Central station	xxv
(12) Washington, D. C., navy-yard	xxv
(13) Quantico, Va. (steamer Fish Hawk)	lxxdiii
North East River, Md. (steamer Fish Hawk)	lxxvi
D.—For propagation of Carp	xxv
(14) Monument reservation, Washington, D. C.	xxv
(15) Arsenal grounds, Washington, D. C.	xxv
3. VESSELS OF THE COMMISSION	xxvi
A.—The Albatross	xxvi
Action in regard to this vessel in 1881	xxvi
Additional appropriation	xxvi
New bids	xxvi
The Pusey & Jones Company the successful competitor	xxvi
Detail of officers	xxvi
Delay in completion	xxvi
Launched August 19, 1882	xxvi
Trial trip made	xxvii
Officer list of the vessel	xxvii
Measurement of the vessel	xxvii
B.—The Fish Hawk	xxvii
Movements during 1882	xxvii
Gulf Stream explorations	xxviii
Special exploration in Chesapeake Bay	xxviii
Change of officers	xxix
Personnel at the end of the year	xxix
C.—The Lookout	xxix
Its command	xxix
D.—Herreshoff launch (No. 82) the Cygnet	xxix
Navy launches (Nos. 49 and 55) loaned	xxix
E.—The Canvas Back	xxix
4. FISH TRANSPORTING AND HATCHING CARS	xxx
Car No. 1	xxx
Car No. 2	xxx
Plan of construction	xxx
Dimensions	xxx
Completion and use	xxx
5. COURTEERS EXTENDED TO THE UNITED STATES FISH COMMISSION	xxx
By the Executive Departments	xxx
The Treasury Department	xxx
The War Department	xxxi
The Navy Department	xxxi
The Commissioner of Public Buildings and Grounds	xxxii
By railroads throughout the United States	xxxii
Special arrangement and prices for Fish Commission cars	xxxii
Free trips granted to cars by certain roads	xxxiii
The interest of railroads in helping the work of the United States Fish Commission	xxxiii
Aid of roads to State Fish Commissions	xxxiii
By foreign steamship lines	xxxiii
The Cunard Company	xxxiii
The North German Lloyds	xxxiii

	Page.
5. COURTESIES EXTENDED TO THE UNITED STATES FISH COMMISSION—Continued.	
By other parties	xxxiii
The Northwestern Trading Company	xxxiii
6. COURTESIES EXTENDED BY THE UNITED STATES FISH COMMISSION TO FOREIGN COUNTRIES	xxxiv
Shipment of fish and eggs to	xxxiv
(1) France	xxxiv
(2) Germany	xxxiv
(3) Great Britain	xxxiv
(4) Chili	xxxiv
7. FISHERY EXHIBITIONS	xxxiv
Those participated in prior to 1882	xxxv
Philadelphia, 1876	xxxv
Berlin, 1880	xxxv
Invitations not accepted	xxxv
Norwich	xxxv
Edinburgh	xxxv
London Exhibition of 1883	xxxv
Acceptance of invitation	xxxv
Appropriation by Congress of \$50,000	xxxv
Preparations made	xxxv
General nature of proposed exhibition	xxxv
Corps of assistants employed	xxxv
Experiment in transportation of fish casts	xxxvi
Co-operation of the Coast Survey	xxxvi
Co-operation of the Patent Office	xxxvi
Co-operation of the Life-Saving Service	xxxvi
8. PUBLICATIONS OF THE FISH COMMISSION IN 1882	xxxvi
Annual Reports	xxxvi
Fish Commission Bulletin	xxxvi
Rules and Regulations	xxxvii
Miscellaneous	xxxvii
Fishery Census Reports	xxxvii
Quarto report on the fisheries of the United States	xxxvii
Editing of publications in charge of C. W. Smiley	xxxvii
9. PAYMENT OF ROYALTIES ON PATENTS	xxxviii
10. PROPOSED PERMANENT SEA COAST STATION FOR THE UNITED STATES FISH COMMISSION	xxxviii
Ground already covered	xxxviii
Argument in favor of the south coast of New England	xxxviii
Reasons for selecting Wood's Holl in preference to Newport	xxxix
Subscriptions of private persons for the purchase of the necessary land	xxxix
Legislation by Massachusetts granting jurisdiction to the United States	xl
Suggestion of the acquisition of the Penikese buildings, and the reasons against it	xl
Survey of ground by S. W. Bowditch	xl
11. ACTION OF CONGRESS IN CONNECTION WITH THE PROPOSED STATION	xli
Engineering work required for proper adaptation of the point selected to the work of the Commission	xli
Commercial arguments in favor of action by the Government	xli
Favorable action of Committee on Commerce in connection with the river and harbor bill of 1881	xli
Passage of item in the bill of 1881 appropriating \$52,000	xli
Suspension of expenditure in 1882	xli

B.—INQUIRY INTO THE HISTORY AND STATISTICS OF FOOD-FISHES.

12. THE SENATE COMMITTEE ON INVESTIGATION OF THE MENHADEN FISHERIES	xlii
Objects of the undertaking	xlii
Work accomplished	xliii
13. THE WORK OF THE FISHERY CENSUS OF 1880, AND ITS RESULTS	xliii
Recapitulation of the arrangement between the United States Fish Commission and the Superintendent of the Census	xliii
General scheme of the investigation, under seven heads	xliiv
Names of special agents and regions to which they were assigned	xliv
Office force	xlvi
Work under the direction of Mr. Charles W. Smiley	xlvi

	Page.
13. THE WORK OF THE FISHERY CENSUS OF 1880, AND ITS RESULTS—Continued.	
Preparation of reports.....	xlv
Special report on the fisheries to be published by the United States Fish Commission.....	xlvii
Report to be published by the Superintendent of the Census.....	xlviii
The two series completing a full history of the fisheries.....	xlviii
List of Fishery Bulletins prepared under the direction of Mr. G. Brown Goode, and published by the Census Office.....	xlix
List of special reports published.....	l
General results of the Fishery-Census investigation.....	li
14. INVESTIGATION OF ALLEGED DESTRUCTION OF THE TILE FISH.....	lii
The schooner <i>Josie Reeves</i> chartered.....	lii
Capt. J. W. Collins and Mr. B. Phillips a committee of investigation.....	lii
General results of the trip.....	lii
No tile fish found.....	lii
A new food-fish found.....	lii
15. THE POLE FLOUNDER.....	lii
Increased range of the species ascertained.....	liii
16. MODELS OF THE FISHING GROUNDS.....	liii
17. FUNGUS DISEASES OF FISH.....	liii
18. WORK DONE AT WOOD'S HOLL IN 1882.....	liii
Arrangements for accommodations during the year.....	liiv
Party accompanying the Commissioner.....	liiv
General work of the Fish Hawk.....	liiv
Report on the fishes collected by the Fish Hawk.....	liiv
19. INVESTIGATION OF THE FISHES OF THE ADIRONDACKS BY DR. C. HART MERRIAM.....	liiv

C.—THE PROPAGATION AND INCREASE OF FOOD-FISHES.

20. BY PROTECTIVE MEASURES ENFORCED BY LAW WHEN NECESSARY.....	lv
Preventing wasteful and willful destruction of adults or young.....	lv
Excluding poisonous or injurious waste from the water.....	lv
Removal of artificial or natural obstructions or of injurious engines of capture.....	lvi
Erection of fishways.....	lvii
21. BY HUMAN OR ARTIFICIAL AGENCIES.....	lviii
Transportation of fish from one region to another.....	lviii
Artificial propagation.....	lviii
22. FISHWAY OVER THE GREAT FALLS OF THE POTOMAC.....	lix
Cause of decrease in the fish of the river.....	lix
Legislation on the subject in connection with that of increased water supply.....	lix
Correspondence of United States Fish Commission with Congressional committee and authorities of the District.....	lix
Law authorizing construction of a fishway.....	lxii
Appropriation for the purpose.....	lxii
Surveys made.....	lxii
23. DISTRIBUTION OF FISH EGGS AND YOUNG FISH.....	lxiii
General methods of distribution.....	lxiii
Building of a second car.....	lxiii
Extra trucks needed for narrow-gauge tracks.....	lxiii
24. SPECIES OF FISH CULTIVATED AND DISTRIBUTED IN 1882.....	lxiii
General list of species covered by the operations of the Commission.....	lxiii
a. The Whitefish (<i>Coregonus clupeiformis</i>).	
The Northville and Alpena stations.....	lxiv
Penning of fish in order to secure their eggs.....	lxv
Special distribution to Eagle Lake, Mount Desert Island, Maine.....	lxvii
b. The Atlantic or Penobscot Salmon (<i>Salmo salar</i>).	
The Bucksport, Me., station.....	lxviii
The Roslyn, N. Y., station.....	lxviii
c. The Schoodic or Land-locked Salmon (<i>Salmo salar</i> sub-sp. <i>sebago</i>).	
The Grand Lake Stream, Maine, station.....	lxix
The Roslyn, N. Y., station.....	lxx
d. The Lake Trout (<i>Salvelinus namaycush</i>).	
The Northville, Mich., station.....	lxx
e. The Quinnet or California Salmon (<i>Oncorhynchus chouitcha</i>).	
The McCloud River station.....	lxx

	Page.
24. SPECIES OF FISH CULTIVATED AND DISTRIBUTED IN 1882—Continued.	
f. The California or Mountain Trout (<i>Salmo irideus</i>).	
The McCloud River station.....	lxxi
The Northville, Mich., station.....	lxxi
The Wytheville, Va., station.....	lxxii
g. The Brook Trout (<i>Salvelinus fontinalis</i>).	
The Northville, Mich., station.....	lxxiii
h. The Shad (<i>Olupea sapidissima</i>).	
The Quantico, Va., station.....	lxxiii
The Washington navy-yard station.....	lxxiii
The Central or Armory station, Washington, D. C.....	lxxiv
The Battery Island station, Havro de Grace, Md.....	lxxiv
The North East River station, Havro de Grace, Md.....	lxxvi
Distribution of fish.....	lxxvii
i. The Potomac Herring (<i>Olupea vernalis</i>).	
The Quantico, Va., station.....	lxxvii
j. The Carp (<i>Oyprinus carpio</i>).	
The Washington, D. C., stations.....	lxxviii
The distribution of carp.....	lxxix
k. The Cod (<i>Gadus morrhua</i>).	
The Fulton Market, New York, station.....	lxxx
l. The Striped Bass (<i>Roccus lineatus</i>).	lxxxii
m. The Black Bass (<i>Micropterus dolomieu</i>).	lxxxiii
n. The White Perch (<i>Roccus americanus</i>).	lxxxiii
The Quantico, Va., station.....	lxxxiii
o. The Oyster (<i>Ostrea virginica</i>).	lxxxiv

D.—ABSTRACT OF THE ARTICLES IN THE APPENDIX.

25. CLASSIFICATION OF ARTICLES.....	lxxxv
A. General.....	lxxxv
B. The fisheries.....	lxxxv
C. Natural history and biological research.....	lxxxv
D. The oyster.....	lxxxvi
E. Propagation of food-fishes.....	lxxxvi
F. Miscellaneous.....	lxxxvi

E.—SUPPLEMENT TO THE REPORT PROPER.

26. LIST OF LIGHT-HOUSE KEEPERS FURNISHING OCEAN TEMPERATURES.....	lxxxvi
27. LIST OF RAILROADS GRANTING BAGGAGE-CAR FACILITIES TO THE UNITED STATES FISH COMMISSION IN 1882.....	lxxxviii
28. LIST OF RAILROADS GRANTING RATE OF 20 CENTS PER MILE.....	xci

II.—APPENDIX TO REPORT OF COMMISSIONER.

APPENDIX A.—GENERAL.

I. Tanner. REPORT ON THE WORK OF THE U. S. FISH COMMISSION, STEAMER FISH HAWK, FOR THE YEAR ENDING DECEMBER 31, 1882, AND ON THE CONSTRUCTION OF THE STEAMER ALBATROSS. By Lieut. Z. L. Tanner, U. S. N., commanding. Three plates. Special index.....	3
II. Wood. REPORT OF THE OPERATIONS OF THE U. S. F. C. STEAMER LOOKOUT FROM MARCH 31, 1881, TO NOVEMBER 20, 1882. By Lieut. W. M. Wood, U. S. N.....	35
III. Eastman. DESCRIPTION OF THE U. S. FISH COMMISSION CAR No. 2, DESIGNED FOR THE DISTRIBUTION OF YOUNG FISH. By Frank S. Eastman. Six plates.....	30
IV. McDonald. A NEW SYSTEM OF FISHWAY BUILDING. By Marshal McDonald. Seven plates.	43
V. The United States exhibit at the Berlin International Fishery Exposition of 1880. From "Vossische Zeitung".....	53
VI. Smiley. LIST OF 1817 OF THE PRINCIPAL LAKES OF THE UNITED STATES, WITH A DESIGNATION OF THEIR LOCATIONS. By Charles W. Smiley. Special index.....	59
VII. Smiley. LIST OF THE PRINCIPAL RIVERS OF THE UNITED STATES WHICH EMPTY INTO THE ATLANTIC OCEAN, PACIFIC OCEAN, AND GULF OF MEXICO, WITH THEIR TRIBUTARIES. By Charles W. Smiley. Special index in Appendix F.....	91

APPENDIX B.—THE FISHERIES.

	Page.
VIII. Sanford. NOTES UPON THE HISTORY OF THE AMERICAN WHALE FISHERY. By F. C. Sanford.....	205
IX. Southwell. THE BOTTLE-NOSE WHALE FISHERY IN THE NORTH ATLANTIC OCEAN. By Thomas Southwell, F. Z. S.....	221
X. EXTRACTS FROM THE FIRST ANNUAL REPORT OF THE FISHERY BOARD OF SCOTLAND FOR THE YEAR ENDING DECEMBER 31, 1882.....	229
A. Scientific investigations proposed by the Fishery Board of Scotland, as necessary for the improvement of the fisheries.....	
B. The effect of fixed engines on the salmon fisheries. A prize essay on "Salmon Legislation in Scotland." By J. M. Leith.....	
C. The herring, cod, and ling fisheries of 1882.....	
XI. Collins. HISTORY OF THE TILE-FISH. By Capt. J. W. Collins. Two plates. Special index.....	237
XII. Storer. MEMORANDA OF METHODS EMPLOYED BY FISHERMEN FOR "BARKING" AND IN OTHER WAYS PRESERVING NETS AND SAILS. By F. H. Storer.....	295

APPENDIX C.—NATURAL HISTORY AND BIOLOGICAL RESEARCH.

XIII. Collins. NOTES ON THE HABITS AND METHODS OF CAPTURE OF VARIOUS SPECIES OF SEA BIRDS THAT OCCUR ON THE FISHING BANKS OFF THE EASTERN COAST OF NORTH AMERICA, AND WHICH ARE USED AS BAIT FOR CATCHING CODFISH BY NEW ENGLAND FISHERMEN. By J. W. Collins. One plate. Special index.....	311
XIV. Bean. LIST OF THE FISHES COLLECTED BY THE UNITED STATES FISH COMMISSION AT WOOD'S HOLE, MASS., DURING THE SUMMER OF 1881. By Trarleton H. Bean.....	339
XV. Smith. REPORT ON THE DECAPOD CRUSTACEA OF THE ALBATROSS DREDGINGS OFF THE EAST COAST OF THE UNITED STATES IN 1883. By Sidney I. Smith. Ten plates. Special index.....	345
XVI. Hensen. ON THE OCCURRENCE AND QUANTITY OF THE EGGS OF SOME OF THE FISH OF THE BALTIC, ESPECIALLY THOSE OF THE PLAICE (<i>PLATESSA PLATESSA</i>), THE FLOUNDER (<i>PLATRESA VULGARIS</i>), AND THE COD (<i>GADUS MORRHUA</i>). By V. Kensen. One figure. Special index.....	427
XVII. Ryder. A CONTRIBUTION TO THE EMBRYOGRAPHY OF OSSEOUS FISHES, WITH SPECIAL REFERENCE TO THE DEVELOPMENT OF THE COD (<i>GADUS MORRHUA</i>). By John A. Ryder. 12 plates and one figure. Special index.....	455
XVIII. Ryder. ON THE PRESERVATION OF EMBRYONIC MATERIALS AND SMALL ORGANISMS, TOGETHER WITH HINTS UPON EMBEDDING AND MOUNTING SECTIONS SERIALLY. By John A. Ryder.....	607
XIX. Blake. A REPORT TO THE UNITED STATES CENTENNIAL COMMISSION UPON THE PRINCIPAL AQUARIUMS ABROAD IN 1873. By William P. Blake. Two figures.....	631
XX. Verrill. NOTICE OF THE REMARKABLE MARINE FAUNA OCCUPYING THE OUTER BANKS OFF THE SOUTHERN COAST OF NEW ENGLAND, AND OF SOME ADDITIONS TO THE FAUNA OF VINEYARD SOUND. By A. E. Verrill. Special index.....	641

APPENDIX D.—THE OYSTER.

XXI. Bouchon-Brandely. REPORT TO THE MINISTER OF THE MARINE RELATIVE TO OYSTER-CULTURE UPON THE SHORES OF THE BRITISH CHANNEL AND THE OCEAN. By G. Bouchon-Brandely, Secretary of the College of France. Special index.....	678
XXII. Brocchi. REPORT ON THE CONDITION OF OYSTER-CULTURE IN FRANCE IN 1881. By Dr. P. Brocchi.....	725
XXIII. Winslow. REPORT OF EXPERIMENTS IN THE ARTIFICIAL PROPAGATION OF OYSTERS CONDUCTED AT BEAUFORT, N. C., AND FAIR HAVEN, CONN., IN 1882. By Lieut. Francis Winslow, U. S. N. One plate.....	741
XXIV. Ryder. AN ACCOUNT OF EXPERIMENTS IN OYSTER-CULTURE AND OBSERVATIONS RELATING THERETO. (Second series.) By John A. Ryder.....	768
XXV. Ryder. THE METAMORPHOSIS AND POST-LARVAL STAGES OF DEVELOPMENT OF THE OYSTER. By John A. Ryder. Three figures.....	779
XXVI. Puységur. ON THE CAUSE OF THE GREENING OF OYSTERS. By M. Puységur. With a supplementary note on the coloration of the blood corpuscles of the oyster. By John A. Ryder. One figure.....	798

APPENDIX E.—PROPAGATION OF FOOD-FISHES.

XXVII. Mather. ACCOUNT OF EGGS REPACKED AND SHIPPED TO FOREIGN COUNTRIES, UNDER THE DIRECTION OF THE UNITED STATES FISH COMMISSION DURING THE WINTER OF 1882-'83. By Fred. Mather.....	809
---	-----

	Page.
XVIII. Clark. REPORT OF THE OPERATIONS AT THE NORTHVILLE AND ALPENA (MICH.) STATIONS FOR THE SEASON OF 1882-'83. By Frank N. Clark. Special index	813
XXIX. Stone. REPORT OF OPERATIONS AT THE SALMON-BREEDING STATION OF THE UNITED STATES FISH COMMISSION ON THE McCLOUD RIVER, CAL., DURING THE SEASON OF 1882. By Livingston Stone.....	839
XXX. Stone. REPORT OF OPERATIONS AT THE TROUT-BREEDING STATION OF THE UNITED STATES FISH COMMISSION ON THE McCLOUD RIVER, CAL., DURING THE YEAR 1882. By Livingston Stone.....	851
XXXI. Atkins. REPORT ON THE PROPAGATION OF PENOBSCOT SALMON IN 1882-'83. By Charles G. Atkins.....	857
XXXII. Atkins. REPORT ON THE PROPAGATION OF SCHOODIC SALMON IN 1882-'83. By Charles G. Atkins.....	863
XXXIII. Mather. REPORT UPON THE HATCHING AND DISTRIBUTION OF PENOBSCOT AND LAND-LOCKED OR SCHOODIC SALMON IN THE SPRING OF 1882. By Fred. Mather.....	875
XXXIV. McDonald. REPORT OF OPERATIONS AT CENTRAL STATION, UNITED STATES FISH COMMISSION, DURING THE YEAR 1882. By Marshall McDonald. Five plates	879
XXXV. Wood. REPORT OF OPERATIONS AT THE NAVY-YARD SHAD-HATCHING STATION IN WASHINGTON, D. C., DURING THE SEASON OF 1882. By Lieut. W. M. Wood, U. S. N. One plate...	891
XXXVI. McDonald. REPORT ON THE DISTRIBUTION OF SHAD THROUGH CENTRAL STATION BY THE UNITED STATES FISH COMMISSION IN 1882. By Marshall McDonald. One figure	899
XXXVII. Smiley. STATISTICS OF THE SHAD-HATCHING OPERATIONS CONDUCTED BY THE UNITED STATES FISH COMMISSION IN 1882. By Charles W. Smiley.....	903
XXXVIII. McDonald. REPORT OF THE DISTRIBUTION OF CARP DURING THE SEASON OF 1882. By Marshall McDonald	915
XXXIX. Smiley. REPORT OF THE DISTRIBUTION OF CARP TO JULY 1, 1881, FROM YOUNG REARED IN 1879 AND 1880. By Charles W. Smiley	943
XL. Nicklas. THE ARTIFICIAL FEEDING OF CARP. By Carl Nicklas	1006

APPENDIX F.—MISCELLANEOUS.

XLI. Collins. REPORT OF A TRIP OF EXPLORATION IN THE CHESAPEAKE BAY MADE IN THE SPRING OF 1882 BY THE STEAMER FISH HAWK, LIEUT. Z. L. TANNER COMMANDING. By J. W. Collins.....	1035
XLII. Bean. LIST OF THE FISHES DISTRIBUTED BY THE UNITED STATES FISH COMMISSION. By Tarleton H. Bean, M. D.....	1039
XLIII. Verrill. PHYSICAL CHARACTERS OF THE PORTION OF THE CONTINENTAL BORDER BENEATH THE GULF STREAM EXPLORED BY THE FISH HAWK, 1880 TO 1882. By A. E. Verrill. Five plates	1045
XLIV. Smiley. ALPHABETICAL INDEX TO THE PRINCIPAL RIVERS OF THE UNITED STATES. By Charles W. Smiley	1059
GENERAL INDEX	1087

LIST OF ILLUSTRATIONS.

		Page.
FISH-HATCHING APPARATUS.*		
PLATE	I.—Shad-hatching cone.....	39
DEEP-SEA THERMOMETERS.*		
PLATE	II.—The Bailie-Tanner deep-sea thermometer case.....	32
	III.—The Negretti-Zambra deep-sea thermometer.....	32
REFRIGERATOR CAR.†		
PLATE	I.—Side view of exterior of refrigerator car No. 2.....	42
	II.—End view of car No. 2.....	42
	III.—Interior view of car when not in use.....	42
	IV.—Interior view of car showing arrangement of cans of fish.....	42
	V.—Interior view of car showing eating arrangements.....	42
	VI.—Interior view of car showing sleeping arrangements.....	42
MCDONALD FISHWAY.‡		
PLATE	I.—Illustrations of the physical laws applied in the McDonald fishway.....	52
	II.—Genesis of the McDonald fishway.....	52
	III.—General plan and elevation of McDonald fishway.....	52
	IV.—Plan and sections of a double way, to show details of construction.....	52
	V.—Plan in outline, to show location of fishway on dam on Rappahannock River near Fredericksburg, Va.....	52
	VI.—Plan in outline, to show location of fishway at Boshers' Dam, James River.....	52
	VII.—Outline plan showing location of fishway at Canal Dam No. 4, Potomac River.....	52
TILE FISH.§		
PLATE	I.—Diagram of the tracks of vessels sailing through dead fish.....	292

EMBRYOGRAPHY OF FISHES.†

FIG. 1.—Stages of development of Teleostei.....	563
PLATE I.....	576
FIG. 1.—Unimpregnated egg of cod.	
2.—Protoplasmic germinal layer of same.	
3.—Protoplasmic layer of impregnated egg.	
4.—Stage between 2 and 3 shown in section.	
5.—Vitiline membrane showing micropyle.	
6.—Cod's egg $\frac{1}{2}$ hour after impregnation.	
7.—Cod's egg 3 hours 40 minutes after impregnation	
8.—Algous growth attached to vitiline membrane of cod eggs.	
PLATE II.....	578
FIG. 9.—Cod's egg 8 hours after impregnation.	
10.—Germinal disk of cod's egg $9\frac{1}{4}$ hours after impregnation.	
11.—Cod's egg 23 hours after impregnation, side view.	
12.—Germinal disk of preceding viewed from below.	
13.—Cod's egg $45\frac{1}{4}$ hours after impregnation.	
14.—Cod's egg 4 days after impregnation.	
PLATE III.....	580
FIG. 15.—Cod's egg 7 days after impregnation, side view.	
16.—The same viewed from below.	
17.—Blastoderm of a cod's egg of the seventh day in outline.	
18.—The same as preceding, in section.	
PLATE IV.....	582
FIG. 19.—Cod's egg on the eighth day.	
20.—Cod's egg on the ninth day, side view.	
21.—The same viewed obliquely.	
22.—Embryo ten days old.	
23.—Embryo somewhat over ten days old.	
PLATE V.....	584
FIG. 24.—Tail of embryo cod on the thirteenth day, viewed from below.	
25.—The same seen obliquely from the side.	
26.—Embryo cod fourteen days old.	
27.—Head of an embryo eleven days old.	
28.—Head of an embryo seventeen days old, side view.	
PLATE VI.....	586
FIG. 29.—Head of embryo cod seventeen days old, viewed from below.	
30.—Head of embryo cod fifteen days old.	
PLATE VII.....	588
FIG. 31.—Embryo cod fourteen days after impregnation, side view in section.	
32.—Embryo cod sixteen days after impregnation, side view in section.	
PLATE VIII.....	590
FIG. 33.—Transverse section near fin fold of embryo eighteen days old.	
33a.—Germinal disk of cod's egg.	
33b.—Germinal disk of shad's egg.	
34.—Embryo cod nineteen days after impregnation.	
PLATE IX.....	592
FIG. 35.—Germinal disk of cod's eggs 4 hours old.	
36.—Similar but abnormal egg.	
37.—Similar but abnormal egg.	
38.—Germinal disk of cod's egg past second cleavage (abnormal).	
39.—Similar but normally developed.	
40.—Embryo cod 22 days after impregnation, side view.	
41.—Heart of the above.	
PLATE X.....	594
FIG. 42.—Embryo cod 21 days after impregnation, seen from below.	
43.—One of the lateral sensory elevations of the preceding specimen.	
44.—Germinal disk, first cleavage of cod's egg.

FIG. 45.—Codfish 35 days after impregnation, side view.	
46.—Embryo cod 23 days after impregnation, from below.	
47. Blastoderm of cod's egg in optic section, 4 days old.	
48. Similar disk 4 1/2 days old.	
PLATE XII	598
FIG. 49. Head of embryo cod, 27 days after impregnation, side view.	
PLANS OF AQUARIA.*	
FIG. 1.—Ground plan of the Vienna aquarium	633
2.—Ground plan of the Brighton aquarium	635
OYSTER-HATCHING APPARATUS.†	
PLATE I.—Apparatus for hatching oyster spat	762
OYSTER CULTURE.‡	
FIG. 1.—Oyster embryo	780
2.—Oyster spat	784
3.—Embryo of <i>Ostrea edulis</i>	790
GREENING OF OYSTER.§	
FIG. 1.— <i>Navicula fusiformis</i>	798
FISH CULTURE. 	
FIG. 1.—Crate for transportation of shad eggs	887
PLATE I.—General view of interior of central hatching station	890
II.—Canning of shad fry for transportation; receiving the eggs and transferring to the hatching jars	890
III.—Making shipment of shad fry	890
IV.—Arrangement of hatching jars and aquaria for collecting fry of shad and whitefish as hatched	890
V.—Supply tank for regulating the head of water for the hatching jars under varying pressure in the water mains	890
FISH-HATCHING APPARATUS.¶	
PLATE I.—Apparatus for operating shad-hatching cylinders	898
GULF STREAM EXPLORATION.*.	
PLATE I.—Principal dredging stations near Gulf Stream	1058
II.—Slope of ocean bottom	1058
III.—Temperature curves	1058
IV.—Temperature curves	1058
V.—Temperature curves	1058
