

LIST OF ILLUSTRATIONS.

THE ALBATROSS.*		Page.
FRONTISPIECE.—The Albatross		3
FIG. —Herreshoff steam cutter		15
—Herreshoff steam gig		16
1.—Action of the Svedberg governors		28
2.—Details of pumps		29
3.—The electric engine		20
4.—The dynamo		33
5.—Lamp fixture—bracket		24
6.—Single-swing bracket		35
7.—Double-swing bracket		35
8.—Arrangement of the wires		36
9.—Lamp-socket		36
10.—Lamp		36
11.—Socket		36
12.—Lamp and socket connected		37
13.—Cut-out blocks and safety plugs		37
14.—The same—reverse view		38
15.—Wise motor		41
16.—Herreshoff double-coil boiler		44
17.—Engine of Herreshoff cutter		45
18.—Pressure-regulating valve		51
19.—Chester's wing net		86
20.—The angle and scope of dredge rope		97
PLATE		
I.—The Albatross dredging		112
II.—Plans of the Albatross		112
III.—The cabin		112
IV.—Upper laboratory		112
V.—Chart room		112
VI.—Interior of the pilot-house; steam steering engine		112
VII.—Berth deck, looking from forward aft		112
VIII.—Steerage		112
IX.—Lower laboratory, looking from forward aft		112
X.—Lower laboratory, looking from aft forward		112
XI.—Ward room		112
XII.—Lieut. W. M. Wood's boat detaching apparatus		112
XIII.—Auxiliary steering gear		112
XIV.—Steam windlass and capstan		112
XV.—Compound twin-screw engines		112
XVI.—The return fire boiler		112
XVII.—Circulating pump		112
XVIII.—Svedberg's marine governor		112
XIX.—Ash elevator and chute		112
XX.—Ash-hoisting engine		112
XXI.—Fresh-water distiller		112
XXII.—Edison dynamo and Armington & Sims engine		112
XXIII.—Dredging engine		112
XXIV.—Dredging engine		112
XXV.—Reeling engine		112
XXVI.—Steam pumps		112

* In Tanner's Construction and Outfit of the Albatross.

PLATE		Page.
XXVII.	Sigsbee's machine for sounding with wire, rigged for reeling in	111
XXVIII.	Belt-tightener, ratchet crank, and dredging quadrant	112
XXIX.	Tanner sounding machine	112
XXX.	Wire splices	112
XXXI.	Soldering lamp	112
XXXII.	Measuring reel and blade	112
XXXIII.	Sigsbee's detacher, used in connection with a modification of Captain Belknap's sounding cylinder, No. 2	112
XXXIV.	Sigsbee's water-specimen cup	112
XXXV.	Improved water-bottle	112
XXXVI.	Improved water-bottle, sectional elevation	112
XXXVII.	Improved water-bottle—details	112
XXXVIII.	Negretti & Zambra's patent improved frame standard deep-sea thermometer	112
XXXIX.	The Tanner improved thermometer-case, with the Sigsbee clamp, used with the Negretti & Zambra deep-sea thermometer	112
XL.	The Miller-Casella deep-sea thermometer	112
XLI.	Hilgard's ocean salinometer	112
XLII.	The bow of the Albatross, showing the location of the dredging boom and sounding machines	112
XLIII.	Dredging block	112
XLIV.	The accumulator	112
XLV.	Safety hooks	112
XLVI.	Deep-sea trawl-framer	112
XLVII.	Beam trawl-frame	112
XLVIII.	Improved beam trawl	112
XLIX.	Common dredge, Chester rake dredge, and Blake dredge	112
L.	Tangle bar	112
LI.	The tangles	112
LII.	The cradle sieve, table sieve, and strainer	112
LIII.	Sigsbee's gravitating trap, for obtaining animal forms from intermedial ocean depths	112
LIV.	Sigsbee's gravitating trap—details	112
LV.	Sigsbee's gravitating trap—details	112

THE ALBATROSS.*

FIG. 1.	Ice-house and cold-room	207
PLATE I.	Steering card	280
	II.—Illustrative cases in navigation (1 and 2)	280
	III.—Illustrative case in navigation (3)	280

EEL FISHING IN THE BALTIC.†

FIG. 1.	Plan of the "hommor" or fish-pot	424
	2.—The same	424
PLATE I.	Diagram of variations in the eel fisheries in Scania, from 1815 to 1880	430

CHEMICAL COMPOSITION OF FISH.

PLATE I.	Nutritive ingredients, water, and refuse in specimens of fish and other food materials as found in the market	494
II.	Nutritive ingredients, water, &c., in flesh, edible portion of fish and other animal foods	404

SPECIMENS OBTAINED BY THE ALBATROSS.‡

PLATE	I.—Umbellula Bairdii, Umbellula Guntheri	604
	II.—Benthoptilum sertum, Lepidogargia gracilis, Anthomastus grandiflorus, Gorsemia longiflora, Lepidisis caryophyllia	606
	III.—Kophobelemnion tenue, Scleroptilum gracile, Pennatula aculeata, Baltiolina Finmarensis, Lepidisis caryophyllia	608
	IV.—Pennatula (Ptillella) borealis	610

* In Tanner's Report on the Work of the Albatross.

† In Lundberg's Eel Fisheries.

‡ In Atwater's Report on the Chemical Composition of Fish and Invertebrates

§ In Verrill's Results of the Albatross Explorations in 1883.

PLATE	Page
V.—Flabellum Goodii, Flabellum angulatum, Caryophyllia communis, Dasmosmilina Lymani, Actinauge nodosa, Actinauge nodosa var. tuberculosa.....	612
VI.—Urticina peridix, Epizoanthus abyssorum, Parapagurus pilosimanus.....	614
VII.—Actinauge longicornis, Actinauge nexilia, Baltioina Finmarohica, Actinernus nobilis, Sagartia spongicola.....	616
VIII.—Adamsia sociabilis, Catapagurus Sbarrovi, Epizoanthus paguriphilus, Parapagurus pilosimanus.....	618
IX.—Anthoptilum grandiflorum, Cladocarpus flexilis, Calicella plicatilis, Dasygorgia Agassizii.....	620
X.—Benthoxytes gigantea, Enphronides cornuta, Lophothuria Fabricii.....	622
XI.—Benthoxytes gigantea.....	624
XII.—Enphronides cornuta.....	626
XIII.—Pteraster militaris, Archaster Floræ, Archaster Parelli, Archaster tenuispinus, Luidia elegans, Asterias Tanneri, Solaster Earlii.....	628
XIV.—Porcellanaster oerulesus, Diplopterastrer multipes.....	630
XV.—Porania grandis.....	632
XVI.—Porania grandis, Lophaster fureifer.....	634
XVII.—Hippasteria phrygiana, Brisinga Americana.....	636
XVIII.—Asterina borealis, Astrogonium granulare, Tremaster mirabilis.....	638
XIX.—Solaster Earlii.....	640
XX.—Astrochile Lymani, Astronyx Loveni, Amphura tenuispina, Ophioscolex quadrispinus.....	642
XXI.—Rhizocrinus Lofotensis, Antedon dentata.....	644
XXII.—Abralia megalops, Leptoteuthis diaphana, Eledonella pygmaea Octopus plectus.....	646
XXIII.—Argonauta argo.....	648
XXIV.—Pleurotoma Dalli, Pleurotomella Agassizii, Pleurotomella Bairdii, Pleurotomella Pandionis, Pleurotomella Benedicti, Pleurotomella Sandersoni, Pleurotomella Saffordi, Pleurotomella baudella, Pleurotomella Emertoni.....	650
XXV.—Pleurotomella Bruneri, Pleurotomella Catherinae, Tarania pulchella, Typhlomangilia Tunuori, Marginella borealis, Buccinum abyssorum, Siphon profundicola, Siphon glyptus, Cingula Jan Mayeni, Scalaria Greenlandica, Scalaria Dalliana, Scalaria Pourtalesii, Scalaria Lesana, Scalaria Andrewsii.....	652
XXVI.—Dolium Bairdii, Benthodolium abyssorum, Torellia fimbriata, Fossarus elegans, Seguenzia formosa, Seguenzia cristata.....	654
XXVII.—Solarium boreale, Calliostoma Bairdii, Margarita regalia, Margarita lamellosa, Cyclotostoma Dalli, Addisonia paradoxa, Cancellina leptoides, Placophora Atlantica, Amicula Emersonii, Turbonilla Rathbuni.....	656
XXVIII.—Pleurobranchia tarda, Scaphander nobilis, Koonia obesa, Issa ramosa, Scyllaea Edwardsii, Glaucus margaritaceus, Dentalium occidentale, Cadulus Pandionis.....	658
XXIX.—Atlanta Peronii, Atlanta Gaudichaudii, Firola Keraudrenii, Pleuropus Hargerii, Diacria trispinosa, Cavollina uncinata, Triptera columnella, Styliola recta, Styliola striata, Cymbulia calceolus, Spongiobranchia australis, Clione papilionacea.....	660
XXX.—Teredo megotara, Poromya sublevis, Nucera multicostrata, Thracia nitida, Verticordia costata, Mytilimoria flexuosa, Pholadomya arata, Diploonta turgida.....	662
XXXI.—Diploonta turgida, Yoldia thraciformis, Yoldia sapotilla, Leda acuta, Pecten vitreus, Pecten pustulosus, Culeolus Tanneri.....	664
XXXII.—Doliolum, sp., Salpa Caboti, Salpa clothe.....	666
XXXIII.—Lithodae Agassizii.....	668
XXXIV.—Pentacheles sculptus.....	670
XXXV.—Munida Caribaea, Glyptocrangon sculptus.....	672
XXXVI.—Ceramphus Agassizii, Sabinea princeps, Phronima, sp., Syconus infelix, Crotalaria impressa, Anthocheles Dubenli.....	674
XXXVII.—Geryon quinquegens.....	676
XXXVIII.—Colosandera collosa, Colosandera macerrima, Scylliobrycebus armatus.....	678
XXXIX.—Polynoë acanellae, Polynoë (Harmothoe) imbricata, Lezania robusta, Notophyllum Americannum.....	680
XL.—Polynoë aurantifera, Polynoë (Harmothoe) imbricata, Lezania robusta, Notophyllum Americannum.....	682
XLI.—Hyalinocela artifex, Leodice polybranchia, Nothria couchyphila.....	684

	Page.
PLATE XLII.—Amphinome Lepadæ, Syllis spongiophila, Ophioglycera grandis, Sabella plecta, Vermilia serrula, Maldane biceps	686
XLIII.—Dipolydora concharum, Lepræa abyssicola, Priapulus, sp., Phascolosoma, sp., Tristoma cornutum, Tristoma læve, Cerebratulus luridus, Sagitta gracilis	688
XLIV.—Sagartia Acanella, Sagartia abyssicola, Acanella Normani, Hyalinocœcia artifax, Cladorhiza grandis	690

OSTEOLOGY OF AMIA CALVA.*

FIG. I.—Left lateral view of cranium of Micropterus salmoides	805
PLATE I.—Cranium of Amia calva	842
II.—Skull and primoidal cranium of Amia calva	844
III.—Cranium and vertebræ of Amia calva, and view of mandible of a Teleostean fish (Micropterus salmoides)	846
IV.—Right lateral view of the skull of Amia calva	848
V.—Inner aspect of the right half of mandible of Amia calva	850
VI.—The palatopterygoidean arcade of Amia calva	852
VII.—Mandible of Amia calva, and cranium of a perch (Perca Americana)	854
VIII.—Upper jaw, shoulder girdle, and pectoral limb of Micropterus salmoides, and like parts in Amia calva	856
IX.—Skeleton of the caudal extremity of Amia	858
X.—Left lateral view of the skeleton of Amia calva	860
XI.—Left lateral view of the skull of Micropterus salmoides	862
XII.—Palatoquadrate arch, right side, inner aspect, and right lateral views of cranium of Albula vulpes	864
XIII.—Superior and inferior views of cranium of Albula vulpes, and opercular bones, hyoid, symplectic, and other elements of Micropterus salmoides	866
XIV.—Posterior view and right lateral view of cranium of Megalops, and shoulder girdle and pectoral fin of Micropterus salmoides	868

OLIGOCHÆTOLOGICAL RESEARCHES. †

PLATE I.—Telmatodrilus Vejdovskyi	926
II.—Telmatodrilus Vejdovskyi, Spirosperma ferox	928
III.—Spirosperma ferox	930
IV.—Ilyodrilus Perrieri	932
V.—Ilyodrilus fragilis	934
VI.—Ilyodrilus sodalis	936
VII.—Hemitubifex insignis	938
VIII.—Hemitubifex insignis, Tubifex campanulatus	940
IX.—Limnodrilus ornatus	942
X.—Limnodrilus Steigerwaldii	944
XI.—Limnodrilus monticola	946
XII.—Limnodrilus alpestris	948
XIII.—Limnodrilus Silvani	950
XIV.—Limnodrilus Silvani	952
XV.—Camptodrilus igneus	954
XVI.—Camptodrilus corallinus	956
XVII.—Limnodrilus alpestris, Camptodrilus corallinus, Camptodrilus spiralis	958
XVIII.—Camptodrilus igneus, Camptodrilus corallinus, Camptodrilus Californicus	960
XIX.—Telmatodrilus Vejdovskyi, Limnodrilus alpestris	962

AQUA-VIVARIUM. ‡

PLATE I.—Least expensive form of aqua-vivarium	970
II.—More elaborate form of aqua-vivarium	970
III.—Still more elaborate form of aqua-vivarium	970

WATER TEMPERATURES. §

PLATE I.—Diagram showing the fluctuations of water temperature in the Chesapeake Bay and Potomac River from July 1, 1882, to June 30, 1883	103
--	-----

* In Shufeldt's Osteology of Amia calva.

† In Eisen's Oligochætological Researches.

‡ In Seal's Aqua-Vivarium as an Aid to Biological Research.

§ In McDonald's Report of Central Station.

HATCHING SPANISH MACKEREL.*

WOOD.

	Page.
FIG. 1.—Apparatus for hatching Spanish mackerel	1091

KITE.

FIG. 1.—Aquarium for hatching Spanish mackerel	1096
2.—Apparatus proposed for hatching floating eggs	1098

FISH PONDS. †

PLATE I	1182
FIG. 1.—Valley, to be transformed into ponds by means of dikes.	
2.—Staking out the dike.	
3.—Position of the pieces of sod.	
PLATE II	1182
FIG. 4.—Section of dike.	
5.—Fish-pit and ditches.	
6.—Protection posts against thieves.	
PLATE III	1182
FIG. 7.—Sluice.	
8.—Tap-outflow.	
9.—The tap-house.	
PLATE IV	1182
FIG. 10.—Section of a "monk."	
11.—Perspective view of a "monk."	
12.—Transverse section of the perpendicular pipe of a narrow "monk."	
13.—Transverse section of the perpendicular pipe of a broad "monk."	
PLATE V	1182
FIG. 14.—Dike with weir, grating, and floating beam.	
15.—Weir.	
16.—Angular grate.	
17.—Portable net for carrying offp.	

CETACEANS. †

FIG. 1.—Showing the organs and regions of the body to which special names are applied.	1168
2.—Pelvic bone of a porpoise, natural size.	1169
3.—Ideal figure of a porpoise, showing by cross-lines at what points the bones of the skeleton may be most conveniently separated.	1170
4.—View of the under side of the skull of a whale, showing the position of A A, the ear-bones; B B, the cheek-bones.	1171
5.—View of the upper side of the skull of a whale, showing the position of A A, the nose-bones.	1171
PLATE I	1180
FIG. 1.— <i>Platanista gangetica</i> . The Susu.	
2.— <i>Inia Geoffroyi</i> . The Inia.	
3.— <i>Pontoporia Blainvilliei</i> . The Pontoporia.	
PLATE II	1180
FIG. 4.— <i>Sotalia fluviatilis</i> . River Dolphin.	
5.— <i>Stenopercillatus</i> . Long-beaked Dolphin.	
6.— <i>Tursiops tursio</i> . Common Bottle-nose Dolphin.	
PLATE III	1180
FIG. 7.— <i>Delphinus delphis</i> . Common Dolphin.	
8.— <i>Prodelphinus punctatus</i> . Spotted Dolphin.	
9.— <i>Leucorhamphus borealis</i> . Right-whale Porpoise.	
PLATE IV	1180
FIG. 10.— <i>Lagenorhynchus gubernator</i> . Striped Dolphin.	
11.— <i>Cephalorhynchus Heavisidei</i> . White-marked Porpoise.	
12.— <i>Phocoena communis</i> . Common Harbor Porpoise.	

* In Wood's and Kite's Spanish Mackerel Papers.

† In Benecke's Utilizing Water by Fish-Culture.

‡ In Truitt's Suggestions to Light-House Keepers and others, relative to collecting specimens of whales and porpoises.

	Page.
PLATE V	1180
FIG. 13.— <i>Neomeria phocaenoides</i> . The Nameno-jno.	
14.— <i>Delphinopterus leucus</i> . White Whale.	
15.— <i>Mouodon monoceros</i> . Narwhal.	
PLATE VI	1180
FIG. 16.— <i>Orcella fluminalis</i> . Indian River-dolphin.	
17.— <i>Grampus griseus</i> . Grampus.	
18.— <i>Globiocephalus melas</i> . Blackfish.	
PLATE VII	1180
FIG. 19.— <i>Pseudorca crassidens</i> . False Killer.	
20.— <i>Orca atra</i> . Killer.	
21.— <i>Physeter catodon</i> . Sperm Whale.	
PLATE VIII	1180
FIG. 22.— <i>Kogia breviceps</i> . Pigmy Sperm Whale.	
23.— <i>Ziphius novæ-zealandiæ</i> .	
24.— <i>Mesoplodon Sowerbiensis</i> . Sowerby's Whale, female.	
24 a.—Head of male Sowerby's Whale.	
PLATE IX	1180
FIG. 25.— <i>Berardius Arnuxi</i> . Arnux's Whale.	
26.— <i>Hyperoodon rostratus</i> . Bottlenose Whale, female.	
27.— <i>Rhachianectes glaucus</i> . California Gray Whale.	
PLATE X	1180
FIG. 28.— <i>Megaptera versabilis</i> . Pacific Humpback Whale.	
29.— <i>Balaenoptera Davidsoni</i> . Little Piked Whale.	
30.— <i>Physalus antiquorum</i> . Common Finback Whale.	
PLATE XI	1180
FIG. 31.— <i>Sibbaldius veliferus</i> . Pacific Finback Whale.	
32.— <i>Balaena mysticetus</i> . Bowhead Whale.
