

CONTENTS.

I.—REPORT OF THE COMMISSIONER.

A.—GENERAL CONSIDERATIONS.

	Page.
1. INTRODUCTORY REMARKS	xi
Scope of present report	xi
Enlargement of scale of work in 1879	xi
Increase in amount of appropriations	xi
Personnel of service kept down	xi
Noteworthy features of the year's work	xi
Distribution of carp commenced	xi
Special fish-hatching steamer begun	xi
Visit of President and Cabinet to the Havre de Grace station	xi
Death and biographical notice of J. W. Milner, first assistant	xi
Division of subjects within the scope of the commission	xii
Condition and improvement of the fisheries	xii
Multiplication of fish by artificial propagation or otherwise	xii
Assistance in carrying on the work	xii
Appointment of T. B. Ferguson	xii
Superintendence of stations	xii, xiii
2. SPECIAL OBJECTS OF THE UNITED STATES FISH COMMISSION	xiii
Reference for details to report for 1878	xiii
3. ASSISTANCE RENDERED TO THE COMMISSION	xiii
By the government in general	xiii
General requirement	xiii
By the Secretary of the Navy	xiii
Detail of steamer Speedwell	xiii
Supply of steam launches	xiii
Repairs of vessels and furnishing supplies	xiii
By the Secretary of the Treasury	xiii
Towing of vessels by revenue cutters	xiii
By the Light-House Board	xiii
Temperature observations	xiii
By the United States Coast Survey	xiii
Issue of charts and loan of deep-sea thermometers	xiii
By the Secretary of War	xiii
Dredging of bar, Spessie Island	xiii
By the Engineer Bureau	xiv
Loan by General Warron of schooner Surveyor	xiv
By the Chief Signal Office	xiv
Loan of telephone apparatus for station at Havre de Grace	xiv
Continuance of record of water temperatures	xiv
By the Commander of the Department of the West	xiv
Detail of military guard at McCloud River station	xiv
Statement by Mr. Stone of its importance	xiv
By the railroads	xiv
Circular instructions to conductors and agents	xiv
Loan of cars	xiv
By steamship companies	xiv
By telegraph companies	xiv
4. SERVICES RENDERED BY THE COMMISSION	xv
Distribution of fish and eggs in general preliminary	xv
Distribution to other countries	xv
Acknowledgment of French authorities	xv
Application for aid by Permanent Exhibition Company of Philadelphia	xv

B.—INQUIRY INTO THE HISTORY AND STATISTICS OF FOOD-FISHES.

	Page.
5. FIELD OPERATIONS DURING THE SEASON OF 1879	xv
Co-operation of the Navy Department in previous years	xv
Co-operation in 1879	xv
Detail of Speedwell	xv
Officers assigned	xy
Provincetown, the station	xv
Headquarters	xvi
Associates and assistants	xvi
Work of Prof. H. E. Webster	xvi
Range of Speedwell's labors	xvi
Visitors during the season	xvii
Specimens collected	xvii
Work of fishery census	xvii
Close of work for season	xvii
Transfer of Captain Tanner	xvii
Establishment of signal station at Provincetown	xvii
Important discoveries of new food-fishes	xviii
Pole-flounder in 1877-'78	xviii
Tile-fish in 1879	xviii
6. THE STEAMER FISH-HAWK	xviii
Importance of improving floating fish-hatching station	xviii
Contract for the vessel	xix
Reference to report of 1880 for details	xix
7. ABSTRACT OF RESEARCHES CONDUCTED UNDER DIRECTION OF THE COMMISSION	xix
Professor Atwater on chemical and physiological properties of fish	xix
Dr. Kidder on temperature of fishes	xix
Professor Gamgee on cooling apparatus	xix
Collection of casts of fishes and cetaceans	xx
8. STATISTICS OF THE FISHERIES (EXCLUSIVE OF THE CENSUS)	xx
Permanent station at Gloucester	xx
Established at Fort Point wharf	xxi
Kind of work accomplished	xxi
Persons employed	xxi
Relief map of fishing-grounds	xxi
Prepared under direction of Coast-Survey	xxi
Work of Captain Linnell	xxi
9. LEGISLATION IN REGARD TO THE FISHERIES	xxii
Actual jurisdiction over the seacoast waters	xxii
Legislation of Maine in regard to Menhaden	xxii
Concurrent disappearance of the fish	xxii

C.—CO-OPERATION WITH THE SUPERINTENDENT OF THE CENSUS.

10. PRELIMINARY ARRANGEMENTS	xxiii
General superintendence and commencement	xxiii
11. PLAN OF INVESTIGATION	xxiii
1. Natural history of marine products	xxiii
2. The fishing-grounds	xxiii
3. The fisheries and fishing-towns	xxiv
4. Apparatus and methods of capture	xxiv
5. Products of the fisheries	xxiv
6. Preparation, care, and manufacture of fishery-products	xxiv
7. Economy of the fisheries	xxiv
8. Protection and culture	xxiv
12. DETAILS OF PROGRESS	xxv
Assignment for field-work	xxv
Time already occupied by each division	xxvi
Office routine	xxvi
Special researches	xxvi
Mr. Earll and Captain Collins in Maine	xxvi
Parties in Massachusetts	xxvi
Mr. Stearns in the Gulf of Mexico	xxvi

	Page.
12. DETAILS OF PROGRESS—Continued.	
Mr. Scudder on the halibut fisheries	xxvii
Mr. Osborn on the Grand Bank fishery	xxvii
Mr. Gordy, life on Gloucester mackerel schooners	xxvii
D.—THE PROPAGATION OF FOOD-FISHES.	
13. WORK ACCOMPLISHED IN 1870	xxvii
The Quinuat, or California Salmon (<i>Salmo quinnat</i>)	xxvii
The McCloud River station	xxvii
Construction of barrier	xxvii
Scarcity of female fish at first	xxviii
Influence of canneries on the supply	xxviii
Improved disposition of the Indians	xxviii
Movement of eggs	xxviii
To Eastern States	xxviii
To foreign countries	xxviii
Refrigerator-car	xxviii
Arrangement of eggs therein	xxviii
Arrivals at stations	xxviii
Shipments to foreign countries	xxix
To Germany	xxix
To Holland	xxix
Report of Mr. Bottemanne	xxx
Supplementary hatching of eggs for California commissioner	xxx
The Rainbow, or California Mountain Trout (<i>Salmo irideus</i>)	xxx
The Crooks Creek station	xxx
Reasons for the selection	xxx
Nature of construction	xxx
Its culture in Japan; history and results	xxx
The Atlantic Salmon (<i>Salmo salar</i>)	xxx
The Penobscot River station	xxx
Resumption of work after an intermission	xxx
Change of hatching-works	xxx
Distribution of eggs	xxx
Return of salmon to same station	xxx
On Lake Ontario	xxx
On Penobscot Bay	xxx
On Columbia River	xxx
The Schoodic Salmon (<i>Salmo salar, var. sebago</i>)	xxx
Grand Lake Stream station	xxx
Enlargement of facilities in 1870	xxx
Dates of taking eggs	xxx
Distribution	xxx
Supplementary stations for hatching <i>Salmonidæ</i>	xxx
In the Southern States	xxx
The Shad (<i>Alosa sapidissima</i>)	xxx
Aggregate yield	xxx
The Albemarle Sound station	xxx
Scale of operations	xxx
Dispatch of Lookout	xxx
Her equipment	xxx
Work on wharf at Avoca	xxx
Production of eggs and fish	xxx
Distribution	xxx
The Havre de Grace station	xxx
Improved machinery	xxx
Commencement of active work	xxx
Four substations established	xxx
Results of the season	xxx
The Potomac River station	xxx
The Carp (<i>Cyprinus carpio</i>)	xxx
The Monument Lot station	xxx
Improvement of ponds	xxx
Telephone connection	xxx
Subdivision of largest pond	xxx
Use of ponds for skating	xxx

13. WORK ACCOMPLISHED IN 1879—Continued.	
The Carp —Continued.	Page.
Production of fish.....	xxxvi
The Arsenal station.....	xxxvii
The Druid Hill Park station.....	xxxvii
Distribution.....	xxxvii
Acquisition of a fresh supply from Europe.....	xxxvii
The Cod-fish (<i>Gadus morrhua</i>).....	xxxvii
The Gloucester station.....	xxxvii
Experiments in transporting young cod.....	xxxvii
Examination of Wood's Holl as a prospective station.....	xxxviii
The Striped Bass (<i>Morone saxatilis</i>).....	xxxviii
The experiment at Acova.....	xxxviii
Disposition of the young.....	xxxviii
Transfer of living fish.....	xxxviii
To California, by L. Stone, at request of State commissioner.....	xxxviii
Kinds of fish taken; disposition made of them.....	xxxviii
Carp, from Europe.....	xxxiii
Tables of the distribution of fish.....	xxxiii
Shad.....	xxxix
California salmon.....	xxxix
Penobscot salmon.....	xxxix
Schoodic salmon.....	xxxix
Carp, too few to tabulate.....	xxxix
I. Chronological record of shad distribution.....	xl-xlv
II. Geographical record of shad distribution.....	xlvi-li

II.—APPENDIX TO REPORT OF COMMISSIONER.

APPENDIX A.—NATURAL HISTORY.

I. W. G. Farlow. THE MARINE ALGÆ OF NEW ENGLAND. By Prof. W. G. Farlow.....	1
II. A. E. Verrill. REPORT ON THE CEPHALOPODS OF THE NORTHEASTERN COAST OF AMERICA. By A. E. Verrill.....	211
I. The gigantic squids (<i>Architeuthis</i>) and their allies, with observations on similar large species from foreign localities.....	211
II. Monographic revision of the Cephalopods of the Atlantic coast, from Cape Hatteras to Newfoundland.....	283
III. Otto Hermes. THE PROPAGATION OF THE EEL. By Dr. Otto Hermes.....	457
IV. L. Jacoby. THE EEL QUESTION. By Dr. Jacoby.....	463
I. History of the eel question.—Antiquity (Aristotle).—Medieval and modern fables regarding the eel.—History of the discovery of the female eel.—Description of its ovaria.....	463
II. History of the eel question (continued).—Discovery of the male eel.—Description of the male organs.—Outward distinctions between male and female eels.—The eel question in Germany in 1877.....	469
III. The eel question (concluded).—Journey of the author to Comacchio and results of his investigations.—Comparative statement of all the doubtful questions and different opinions regarding them.....	476
V. K. Möbius. THE FOOD OF MARINE ANIMALS. By Prof. K. Möbius.....	485

APPENDIX B.—THE SEA FISHERIES

VI. W. Finn. THE ICELAND HERRING FISHERIES. By W. Finn.....	493
VII. Axel Ljungman. CONTRIBUTION TOWARD SOLVING THE QUESTION OF THE SECULAR PERIODICITY OF THE GREAT HERRING FISHERIES. By Axel Ljungman.....	497
VIII. Axel Ljungman. CONTRIBUTIONS TOWARD A MORE CORRECT KNOWLEDGE OF THE HERRING'S MODE OF LIFE. By Axel Ljungman.....	505
IX. A. G. Kruss. THE FISHERIES ON THE WEST COAST OF SOUTH AMERICA. By A. G. Kruss.....	515

APPENDIX C.—DEEP-SEA RESEARCH.

	Page.
X. POPULAR EXTRACTS FROM THE INVESTIGATIONS OF THE COMMISSION FOR THE SCIENTIFIC EXAMINATION OF THE GERMAN SEAS.....	525
A. The physical condition of the Baltic and the North Sea. G. Karster	525
B. Scientific investigations upon the fishes profitable to the fisheries. K. Möbius	534
C. The spawning process of salt-water fish and its importance to fishermen. V. Hensen.	548
XI. Sanderson Smith and Richard Rathbun . LISTS OF THE DREDGING STATIONS OF THE UNITED STATES FISH COMMISSION FROM 1871 TO 1879, INCLUSIVE, WITH TEMPERATURE AND OTHER OBSERVATIONS. Arranged for publication by Sanderson Smith and Richard Rathbun	559
XII. Z. L. Tanner . REPORT OF OPERATIONS OF THE UNITED STATES STEAMER SPEEDWELL IN 1879, WHILE IN THE SERVICE OF THE UNITED STATES FISH COMMISSION. By Lieut. Z. L. Tanner, U. S. N., commanding	603

APPENDIX D.—PROPAGATION OF FOOD FISHES.—GENERAL CONSIDERATIONS.

XIII. C. Tölke . THE POLLUTION OF PUBLIC WATERS BY REFUSE FROM FACTORIES. By C. Tölke	619
XIV. IS SAW-DUST INJURIOUS TO THE FISHERIES? (From report of A. Landmark)	625
XV. G. F. Reisenbichler . THE THICK OR THIN FERTILIZATION OF EGGS. By G. F. Reisenbichler	633
XVI. Livingston Stone . REPORT ON OVERLAND TRIP TO CALIFORNIA WITH LIVING FISHES, 1879	637
XVII. Sekizawa Akekio . MEMORANDUM ON FISH-CULTURE IN JAPAN, WITH A NOTICE OF EXPERIMENTS IN BREEDING THE CALIFORNIA TROUT. By Sekizawa Akekio	645
XVIII. Von dem Borne . ON POND-FISHERIES. By Von dem Borne	649
XIX. Emil von Marenzeller . THE PISCICULTURAL ESTABLISHMENT OF MR. AUGUST FRUWIRTH IN FREILAND, NEAR ST. PÖLTEN, LOWER AUSTRIA. By Dr. Emil von Marenzeller	651

APPENDIX E.—PROPAGATION OF FOOD FISHES.—SPECIAL APPLICATIONS.

XX. H. W. Mason . REPORT OF OPERATIONS ON THE NAVESINK RIVER, NEW JERSEY, IN 1879, IN COLLECTING LIVING STRIPED BASS FOR TRANSPORTATION TO CALIFORNIA. By H. W. Mason	663
XXI. O. Finsch . REPORT ON THE TRANSPORTATION OF A COLLECTION OF LIVING CARP FROM GERMANY. By Dr. O. Finsch	667
XXII. Eckardt-Lübbinchen . REPORT ON THE PROPAGATION AND GROWTH OF CARP. By Mr. Eckardt-Lübbinchen	671
XXIII. Haack . RAISING SALMONOIDS IN INCLOSED WATERS. By Director Haack	675
XXIV. Haack . TREATMENT OF YOUNG SALMONOIDS AND COREGONI FROM THE TIME THEY LEAVE THE EGG TILL THEY ARE FULLY DEVELOPED AND CAN BE PLACED IN OPEN WATERS. By Director Haack	687
XXV. Livingston Stone . REPORT OF OPERATIONS AT THE UNITED STATES SALMON-BREEDING STATION ON THE McCLOUD RIVER, CALIFORNIA, DURING THE SEASON OF 1879	695
XXVI. C. J. Bottemann . CALIFORNIA SALMON IN THE NETHERLANDS. By C. J. Bottemann	709
XXVII. Livingston Stone . REPORT OF OPERATIONS AT THE UNITED STATES TROUT PONDS, McCLOUD RIVER, CALIFORNIA, DURING THE SEASON OF 1879. By Livingston Stone	715
XXVIII. Charles G. Atkins . REPORT ON THE PROPAGATION OF PENOBSCOT SALMON IN 1879-'80. By Charles G. Atkins	721
XXIX. Charles G. Atkins . REPORT ON THE PROPAGATION OF SCHODDIC SALMON IN 1879-'80. By Charles G. Atkins	733
XXX. H. Rubelius . CRAWFISH CULTURE IN EUROPE. By H. Rubelius	767
XXXI. Emil von Marenzeller . THE RAISING OF SPONGES FROM CUTTINGS. By Dr. Emil von Marenzeller	771

APPENDIX F.—MISCELLANEOUS.

Page.

XXXII. C. W. Smiley. DESCRIPTIVE LIST OF THE PUBLICATIONS OF THE UNITED STATES FISH COMMISSION, FROM ITS ORGANIZATION IN 1871 TO DECEMBER 31, 1879	781
XXXIII. LIST OF COLLECTIONS MADE BY THE FISHING VESSELS OF GLOUCESTER AND OTHER NEW ENGLAND SEAPORTS FOR THE UNITED STATES FISH COMMISSION FROM 1877 TO 1880.....	787
