Hi Laura

I look forward to getting the info you refer to as,soon as possible.

Many thanks for your help.

Hi Barbara,

In case you didn't get my e-mail over the weekend, I was in touch with Matt Nixon at the Maine Coastal Program about the data you have requested. I've attached a document I found on the web, but none of the links work anymore. Matt is working on digging up the information for you. I think the two documents listed under the "Siting Process Information" section may have what you are looking for. Matt also mentioned that there is a large Excel spreadsheet with data as well.

Best,

Laura

Good morning Laura,

It's barbara hitchcock from Monhegan. at the recent meeting on the island habib dagher, in response to a question, spoke of a data base which played in the site selection. I was interested in reading through it and asked about assess to this data base. I believe I was told it could be found online.

Not being super computer savvy I asked if you would help make that available. Having poked around a bit I haven't come up with anything and am now turning to you to help me. I am looking for "...the data base which was used to reduce the 7 sites to three."

Many thanks,

barbara
