|-------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| <b>PART I.</b> —The gigantic squids ( <i>Architeuthis</i> ) and their allies; with observations on similar large species from foreign localities..... | [1]   |
| General description of the several American specimens, and of their occurrence....                                                                    | [5]   |
| Comparative measurements of the specimens.....                                                                                                        | [22]  |
| Special descriptions of the Atlantic coast species.....                                                                                               | [23]  |
| Observations on the specimens described from foreign localities:                                                                                      |       |
| A.—Atlantic Ocean species.....                                                                                                                        | [51]  |
| B.—Examples from the Indian Ocean and New Zealand.....                                                                                                | [63]  |
| C.—Examples from the North Pacific.....                                                                                                               | [65]  |
| D.—Note on large species of <i>Octopus</i> .....                                                                                                      | [71]  |
| <b>PART II.</b> —Monographic revision of the Cephalopoda of the Atlantic coast, from Cape Hatteras to Newfoundland.....                               | [73]  |
| Dibranchiata.....                                                                                                                                     | [73]  |
| ORDER I.—Decacera.....                                                                                                                                | [75]  |
| ORDER II.—Octopoda.....                                                                                                                               | [177] |
| Supplement.....                                                                                                                                       | [199] |
| Conspectus of the families, genera, and species of Cephalopoda included in this paper.....                                                            | [221] |
| Explanation of plates.....                                                                                                                            | [226] |
| Index.....                                                                                                                                            | [243] |
